Audio Problems?

The audio section of the Gotowebinar Control Panel has options for:

- computer audio
- phone call

Be sure to check that your speakers are turned up if using computer audio!

The screenshot shows the GoToWebinar Control Panel interface. A blue rectangular box highlights the 'Audio' section and the 'Handouts' and 'Questions' sections. The 'Audio' section includes radio buttons for 'Computer audio' (selected), 'Phone call', and 'No audio'. Below these is a microphone icon with the word 'MUTED' in red, a dropdown menu for 'MacBook Air Microphone', a volume slider, and another dropdown menu for 'MacBook Air Speakers'. The 'Handouts' section is titled 'Talking:' and 'Handouts: 3', listing three PDF files: 'Gift Management 101 Outline Parts 1 & 2.pdf', 'Gift Management 101 Presentation Parts 1 & 2.pdf', and 'Printable Slides Gift Ma...ement 101 Parts 1 & 2.pdf'. The 'Questions' section is currently empty. To the right of the box, two black arrows point left towards the 'Handouts' and 'Questions' sections, with the labels 'Handouts' and 'Questions' respectively.

Difference between a constituent report and a gift report

Constituent report: Each constituent who meets your search criteria will only be listed in your report once. If you search for constituents who've made gifts in 2024, a constituent's name will only be listed once - even if they made multiple gifts in that time period.

Gift report: Each gift record that meets your search criteria will be listed on its own row in your report. A constituent's name will be listed with each gift record that meets your search criteria. Since Phil Danforth made three gifts in September, his name is correctly listed three times in your gift report - once with each gift record.

Two key steps to shape your report:

Search: What type of record do you need in your report?

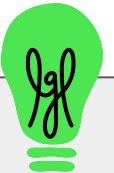

- If you need constituent records, navigate to the Constituents page and search there.
- If you need gift records, navigate to Fundraising → Giving and search there.

Customize: What information do you need to know about those records?

- Select the fields you want to include, which will appear as columns of data on your exported spreadsheet

Troubleshooting custom reports

Tips for troubleshooting a custom report

- Confirm that you created the type of report that suits your needs (Constituent vs. gift)
- Examine a record and check it against your search criteria
- Check the customization of fields (such as total giving) and check it against the coding of a gift record
- If data doesn't appear, click Enable Editing:

- Contact support with the name of your report and a specific example of the issue
